Details of Curriculum

We follow NCERT curriculum for all classes from Std I – X.

The following are the salient features of our curriculum:

1. It uphold Constitutional values such as socialism, secularism, democracy, republican character, justice, liberty, equality, fraternity, human dignity and the unity and integrity of the Nation.
2. It keeps pace with the 21st century and the global trends in various disciplines.
3. It provides ample scope for physical, intellectual and social development of students.
4. It integrates innovations in pedagogy, knowledge and application, such as human sciences with technological innovations.
5. It nurtures Life-Skills by prescribing curricular and co-curricular activities to help improve self-esteem, empathy towards others and different cultures etc.
6. It promotes inclusivity by providing equal opportunities to all students.
7. It encourages values-based learning activities.
8. It enlists general and specific teaching and assessment objectives.
9. It integrates environmental education in various disciplines from classes I-XII.
10. It equally emphasizes Co-scholastic areas of Work Education, Art Education and Health and Physical Education.
11. It gives excellent opportunities to interdisciplinary teaching so that the students get a chance to apply knowledge, principles and values to more than one academic subject.

12. It provides an academic environment that focuses on extracurricular activities that promotes all-round development and versatility and a culture of discipline that enables students to develop into a good human being.

13. It determines a strategy that will be more effective in the teaching learning process like inquiry based learning, individual learning, experiential learning and programmed learning.

14. It provides a learning experience in developing skill in thinking, acquiring knowledge and developing social attitudes and interest.

15. It provides an essential element of problem solving, communication and reasoning.
